

Parenting in the Digital Age

As Farnborough Rd Infant School is a digital schools member you can access a free training course which will advise you about e-safety and how to support your child at home and to ensure that they keep themselves safe when using the internet.

Parenting in the Digital Age consists of three short modules, each consisting of a presentation with a voiceover and an article to read. The modules cover online risk, tools and controls, and confident digital parenting.

We're a Digital School! Free training for parents

Our school is part of Parent Zone's Digital Schools Membership programme, recognising our commitment to keeping our pupils safe online, and making sure we work with you and all of the school community to achieve this.

Digital Schools membership includes access to Parent Zone's online digital parenting course, Parenting in the Digital Age. This short course gives you straightforward information and advice on how to manage and feel confident about your child's online world.

For your free access to the programme, go to www.parentzone.org.uk/parentcourse.

- Click on the pink **'Add to cart'** button to start your registration.
- On the next page click **checkout**. You'll then be asked to enter your email address.
- On the next page, you will need to enter the coupon code **DSP16** to ensure you have free access to the programme.

Once you've completed the short registration you'll receive two emails - one confirming your order and one with log in instructions. After clicking the link in the email press the log-in button and you should be asked to set a password, after which you will be directed to the Parent Resources page where you can start the course.

Once you have logged in the Parenting in the Digital Age course page will always be accessible at this link: <http://parentzone.org.uk/membership/parent-resources>.

Another benefit of our Digital Schools membership is access to an email help service for parents, so if you have any questions about the course or any aspect of your family's online life, you can email dshelp@parentzone.org.uk for free, confidential advice.

At Farnborough Road Infant School we are dedicated to teaching all of our children about e-safety in this rapidly changing digital world. We want all of our children to consider the implications of their behaviour online and reinforce the "Think before you click" motto. We want all of our children to have the skills to keep themselves safe and to know what to do if they feel that something is upsetting them online or, just does not feel right.

We would appreciate any feedback from anyone who completes this short course. You can email comments to the school email address: Fris@schools.sefton.gov.uk

Kind Regards

Mrs J Lea – Computing Leader, FRIS
