

Dear Parents/Carers,

We are writing to provide reassurance to our community regarding the removal of the floral tributes in front of our schools. We can confirm that this has been done in consultation with the families and they are aware of the plans moving forward.

The families have been greatly touched by the warm support of the community and would like to say a huge thank you to our communities for the floral tributes and gifts outside school. It has brought great comfort to the families to see how much you care.

The flowers will be collected by Green Sefton from all school on Tuesday 27th August and will be composted or re-sited at The Atkinson. The plants will be shared with the families and the school to use to create a beautiful space for reflection in their gardens and within the school grounds. The gifts will be saved for a time that is right to share with the families. These will be lasting memories for us all to enjoy for our beautiful girls Alice, Bebe and Elsie Dot.

Yours sincerely,

Jennie Sephton
